

Education Program

Manfrotto Distribution is pleased to offer one of the most comprehensive Student & Instructor Programs in the industry. Our wide range of equipment offers your educational customers everything they need to master image capture techniques. No matter what the medium – photo, video, digital or motion picture, the products we distribute are the finest and most requested by professionals all over the world.

The more successful students are in their imaging careers, the more likely they are to buy additional equipment in the future. We want to help you increase your sales by providing the finest products available to help students along the way. The objective of the program is to ensure that all dealers are able to offer the best equipment at the same price. Manfrotto Distribution will provide signage for use in your store as well as reach out to institutions and educators to communicate the availability of this program.

There are two important steps to remember when you sell equipment through the program:

1. Have the student submit the completed application with proof of eligibility and payment directly to you.
2. Submit the application to Manfrotto Distribution with the order for approval and shipment to your store. No order will be honored or discount granted without the proper paperwork being submitted.

You should charge the student/instructor the Education Program Pricing from the most recently published Education Price list available on the Manfrotto Distribution Dealer Site. In return, we give you 10% off your invoice price. Dealer must provide proof that the Education Pricing is being charged and all applicable paperwork must be in order to receive the 10% discount.

This is a great opportunity for you to establish a long-term relationship with the students and instructors at the institutions offering the finest photographic programs in the country.

In the event that you are requested to include the cost of freight in an education bid for Educational Orders, Manfrotto Distribution has modified the Educational Order Process:

Educational Orders for Bids are allowed to reflect freight costs in the bid price to the customer/organization/school, etc. **Notation must** be added to the Purchase Order sent to Manfrotto Distribution **AND** on the bid submitted for documentation with the purchase order explaining that the price charged reflects LDN price and freight cost. Educational orders shipped to the dealer are prepaid freight. For Drop Shipped Orders, freight costs will be charged to the dealer. No Educational Order will be processed without the specific Purchase Order from the institution being attached.

FREIGHT QUOTATIONS: Please e-mail order@manfrottodistribution.us for freight quotations. Allow one business day to receive accurate freight quotes.

Dated: February 2014
Orders are subject to review and approval by Manfrotto Distribution Customer Service Department.
