

## Apollo Storm series assembly instructions

- 4 x top caps
- 4 x threaded studs
- 4 x black isolation discs
- 4 x leg tubes
- 4 x spikes

WHEN STACKING MODULES, BE SURE TO NOT ALLOW THE LEG SPIKES TO TOUCH THE WOOD OF THE SHELF BELOW.

1

Fit top cap to stud

2

Completed cap stud assembly

3

Fit the stud assembly through the wood panel

4

Slide the isolation disc down the stud making sure the protruding lip located on the inner hole is facing the wood

5

The cap should fit flush to the wood.

6

Slide the leg tub over the stud and screw onto the threaded insert located inside the leg

7

Use the Alan key to tighten.

8

The leg assembly should now look like this

9

Finally, fit the spike to the leg. Stack the modules adjusting the spikes as required.
